ATTACHMENT TO NOTICE OF ALLOWABILITY

1. The following is an examiner's statement of reasons for allowance:

The Examiner has carefully considered the two independent claims 1, 19 that have been presented, after the 25 May 2004 amendment and response. They relate to a web page shortcut-creation system in which a button that is inserted onto a first web page is used to invoke "an add short cut process" (claim 1 quoted as exemplary). These claims are now deemed to overcome the prior art made of record.

The previously-outstanding rejection under 35 USC 103 relied upon a combination of Morrell, Jr. (US #2002/0089535 A1), who teach the insertion of a shortcut to a web site in response to a user clicking a link to another page, and Dickman et al. (US #5,877,765), who illustrate the creation of shortcuts on a display through user dialog.

However, Morrell, Jr.'s shortcut-generation is responsive to the user invoking a navigation command to another page, and not a button dedicated to shortcut-creation, as in the presently-claimed invention. This is not remedied by Dickman, for there is no material teaching or suggestion that the user-interactive shortcut-specification found there could be so associated as to be spawned from the web page of the Morrell, Jr. first page.

The Examiner notes that, while the introduction of shortcuts that link to web pages has long been accomplished in the art, as in the case of Dickman, the typical

mode of this operation has been through a system layer that is lower than the contents of the browser client region and the ongoing process that is driven by web page contents. While Morrell, Jr. has shown that shortcuts can arise from operations within a browser, Morrell, Jr. does not fairly suggest a button in a web page that permits explicit placement of such a shortcut.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond J. Bayerl whose telephone number is (703) 305-9789. The examiner can normally be reached on M - F from 10:00 AM to 5:00 PM.

4. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca, can be reached on (703) 308-3116. All patent application related correspondence transmitted by FAX **must be directed** to the central FAX number (703) 872-9306.
